PROFILE

Recent M.S. in Artificial Intelligence graduate (2026) with 4.00 GPA, experienced in machine learning, data analytics, and software development. Proficient in Python, SQL, R, and modern analytics tools with hands-on experience delivering end-to-end AI and data-driven solutions. Seeking full-time opportunities in AI/ML, Data Analytics, or Software Engineering.

EXPERIENCE

Lab Assistant 01/2026 – 05/2026

Intro to Computer Programming, UTSA, San Antonio, TX

- Analyzed 30+ student performance records to identify programming error patterns and improve learning outcomes.
- Maintained lab data and progress logs, enabling data-driven feedback and reducing repeat errors by 20%.

Human Resources Intern 08/2024 – 12/2024

Aramark, UTSA, San Antonio, TX

- Managed HR records for 200+ employees using Excel and Google Sheets with 98%+ accuracy.
- Streamlined HR reporting in Excel, reducing manual effort by 30% and supporting compliance audits.

Secretary 10/2022 – 05/2024

IEEE Student Chapter, VBIT, India

- Mentored 250+ participants in C#, .NET Framework, and Visual Studio during a .NET workshop.
- Organized a Neuro-Robotics workshop, coordinating technical demonstrations and student collaboration.

EDUCATION

Master of Science in Artificial Intelligence (GPA: 4.00) 2024-2026

University of Texas at San Antonio, San Antonio, TX

Computer Science and Engineering (Data Science concentration) 2020-2024

Vignana Bharathi Institute of Technology, India

SKILLS

- Programming:** Python, SQL, R, JavaScript, C#, HTML, CSS
- Machine Learning:** Scikit-learn, TensorFlow, Pandas, NumPy, OpenCV
- Data Analytics:** Data Wrangling, EDA, Statistical Analysis, Feature Engineering, Predictive Modeling
- Visualization & BI:** Power BI, Tableau, Plotly, ggplot2, Looker Studio
- Databases & Tools:** BigQuery, Snowflake, Airflow, DBT, Git, GitHub, Excel, SAS
- Concepts:** Machine Learning, Deep Learning, Computer Vision, A/B Testing, ETL, Data Storytelling

CERTIFICATIONS

- AWS Academy Cloud Architecture
- AWS Academy Cloud Security Foundations
- AWS Academy Data Analytics
- Salesforce Developer Virtual Internship
- AWS Academy Machine Learning Foundations
- Salesforce Administrator Virtual Internship

PROJECTS

F1GridIQ - F1 Race Outcome Prediction & Analytics Dashboard 03/2026 – 04/2026

Python, Pandas, NumPy, Scikit-learn, Plotly, HTML, CSS, JavaScript, Google Colab, GitHub

- Built predictive models on 26K+ F1 records using Python, Pandas, Scikit-learn, and NumPy.
- Developed Random Forest, Neural Networks, and a Plotly dashboard explaining 73% of race variance.

Boston Crime Analysis 08/2025 – 12/2025

R, Tidyverse, ggplot2, Leaflet, RandomForest, Caret

- Processed 300K+ crime records using R, Tidyverse, and ggplot2 for EDA and visualization.
- Built Random Forest and Linear Regression models using Caret for crime prediction.

Impact of Revenues on Education Enrollment 08/2024 – 12/2024

R, SAS, Line Plot, Pie Chart, Bar Chart

- Analyzed nationwide education data using R, SAS, and statistical visualization techniques.
- Built a Linear Regression model ($R^2 = 0.898$) to predict education expenditures.

PUBLICATIONS

Automated Challan Generation System Using Deep Neural Networks 09/2025

ResearchGate

- Developed a Deep Neural Network using Python, OpenCV, and OCR for license plate recognition.
- Built an AI-powered Computer Vision pipeline for automated e-challan generation and traffic monitoring.
